EQUIPMENT RENTALS . . .

TRUCKING

Rock Trucks

25 tonne rock trucks can move material up to 3x
faster than traditional dump trucks in rugged, on-site
conditions due to their 6 wheel drive.

Boom Trucks

Max hydraulic reach of 57'
Lifting capacity of 4000lbs at 33'
Lifting capacity of 1900lbs at 57'
Durabody 9' x 24' Deck

Stone Slingers

Conveyor belt can spread material up to 60 feet.
Anything from soils to stones.

Tilt n Loads

Small trucks are ideal for hauling loads in tight areas
Floats small machines such as skidsteers or mini hoes

Dump Trucks and Tractor Trailers

Haul up to 38 Tonne loads
Includes Hopper Trailers which are great for
laneway work.

MISCELLANEOUS EQUIPMENT

Loaders

Loaders with bucket sizes ranging from 3yds³ to 7yds³

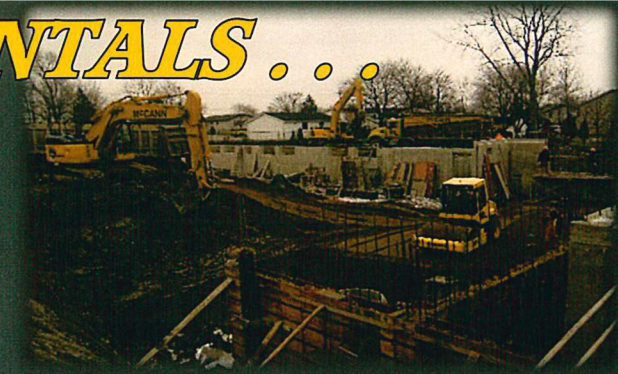

Compaction Equipment

Ride on Compactors (66" wide)
Walk behind compactors (reversible or tamper)

Skid Steers

Skidsteer has multiple
attachments including
augers for posts holes,
forks for loading and
breakers for existing
concrete removal

EXCAVATORS

Machines range from 38hp (5 Tonne) to 257hp
(36 Tonne) .

Machines with zero turn capabilities, make them
excellent for working in tight areas.

Machines with rubber tracks, which allow work
to be done on top of existing asphalt or concrete
without causing damage

Dig depths up to 27' below grade
with grade eye technology for precise grade
excavation.

Multiple attachments including various buckets,
breaker (remove existing concrete), hydraulic
thumb (demolition), hoe pack (compaction) and
pulveriser (crushing of existing concrete)

DOZERS

Machines ranging from 77hp (8 Tonne)
to 157hp (17 Tonne)

Machines have GPS grading technology making them
optimal for highly influenced grading projects

Ideal for large earthmoving or site work projects

6 way blade configurations, perfect for fine grading
of floors, parking lots, and roads

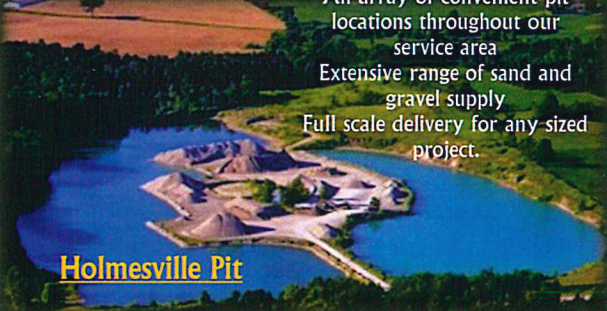

AGGREGATE SERVICES

CRUSHING & SCREENING

Multiple modern, full scale crushing operations
Custom crushing and screening of various aggregate materials based on project specifications or individual customer's specific needs.
